GRADUATING-YEAR & GRADUATE AWARDS

To encourage and support its finest University College graduates as they pursue further education at the graduate level, University College offers a number of fellowships to students enrolled in the College.

The Scholarship Committee selects recipients on the following basis:

- The student's overall academic record, with a special emphasis on work in more advanced courses (See note below.)
- The student's statement of his or her plans for further study
- Letters of recommendation from those familiar with the student's academic work.

Students are ordinarily eligible for graduating-year awards in their last winter session before receiving the Honours Degree; students in other situations going on to further study may apply and explain their plans. Please note that faculties and schools such as Law, Medicine, Dentistry and Education are professional schools and not necessarily graduate programs. Only students intending to pursue programs at the Masters and Doctorate level will be considered for these awards.

As there are always more deserving students than funds, University College reserves the right to reduce the monetary value of an awarded scholarship if in its opinion the recipient has already received sufficient recognition from other sources. Winners are therefore required to notify the Registrar's Office of any other awards received.

Applicants should submit the following in a complete package by the deadline:

1. The covering application form (attached)

2. A statement of plans detailing the field of study the student intends to pursue and how past work has prepared the student for such study.

3. Supporting letters from at least 2 faculty members familiar with the student's work. (Referees may submit copies of letters used for other awards, e.g. OGS.) Those wishing to maintain confidentiality may release the letters to the students in envelopes signed and sealed.

COMPLETED APPLICATIONS AND ALL ACCOMPANYING MATERIALS ARE DUE MAY 1, 2017 IN THE REGISTRAR’S OFFICE.

NOTE:
In deciding whether to invest the time and labour in applying, students might like to consider this: while the Committee is often impressed by the clarity and cogency of students' academic plans, it does place considerable weight on the overall academic record, since that enables the student to carry out the plan. The Committee seldom looks below a 3.00 cumulative average and often exhausts the fellowships available before getting beyond the 'A' range (3.50 and up). The more open the award’s terms, the more intense the competition; the more narrow, the further the Committee might have to seek for qualified applicants.
1. **ANNA AND ALEX BEVERLY MEMORIAL FELLOWSHIP** is of the value of up to $5000, awarded to a University College student for the purpose of graduate studies within or outside Canada.

2. **DAVID AND HELEN EISEN FELLOWSHIP** is the bequest of David Eisen, and the gift of Mrs. Helen Eisen.
